

EXPLORE SPACE SATURDAY OCTOBER 16TH

JAMES WEBB SPACE TELESCOPE DAY

ALL DAY - Special displays and activities delving into the JWST and infrared astronomy. Plus, build-your-own space craft activities. \$5 exhibits & \$5 planetarium shows

10AM-5PM - Solar telescope viewing on the UA Mall hosted by Tucson Amateur Astronomy Association (subject to weather).

5PM - JWST talk from UArizona Astronomer Kevin Hainline (Free!).

6:30PM - Three back-to-back special presentations of Tucson Sky & Beyond.

INTERNATIONAL OBSERVE THE MOON NIGHT

7-9PM - Star Party with the Tucson Amateur Astronomy Association on UA Mall. Experience the Moon's fascinating features through high-powered telescopes, free.

8PM - Laser Light Show, Pink Floyd's Dark Side of the Moon! Based on Pink Floyd's 1973 album of humanitarian, political and philosophical empathy, Dark Side of the Moon is one of the most startling and bizarre laser light shows of all time. Only \$5!
